# POLOS THAT WORK

## VALUE

Affordable polos designed for custom branding, offering businesses quality workwear at a great price.

## QUALITY

We may focus on value, but we never compromise on quality. Our polo shirts are made to endure the demands of the modern workplace.

## RESPONSIBILITY

By prioritizing low-impact production methods, we strive to make choices that benefit both people and the planet, ensuring that our workwear reflects values of responsibility and care.

# WHO WE ARE.

At Woodbrook we pride ourselves on helping to reduce the harmful impact the apparel industry has on our planet, continually striving to be a low carbon supplier of garments. We are the original market innovators, and our mission is to innovate with care, putting people at the center of our business and always being one step ahead of the ever-changing landscape within the sector.

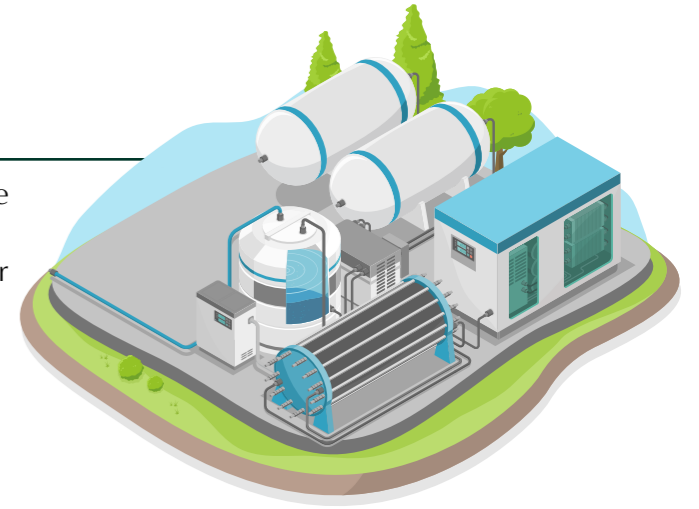

## REDUCING WATER USAGE

Ensuring they use the latest technologies our production has reduced water consumption during the dyeing and finishing process by over **50% per garment**. Any excess water is processed through a state of the art effluent water treatment plant before being released in a sustainable manner.

## WATER TREATMENT

Water treatment at the fabric and dyeing stage of production is also a key concern for us. The apparel manufacturing process uses water for dyeing, washing and printing textiles. This inevitably generates water-based toxic waste, or effluent. Our waste water is treated so that it can be released back into the environment, with no environmental impact.

# 100% RECYCLED POLY LINERS

We are committed to reducing plastic waste by using poly liners made from 100% recycled material for all garment colors. Instead of using individual plastic bags for each item, we package all garments together in a single poly liner. This eco-friendly solution helps minimize plastic usage while maintaining the quality and protection of your garments.

# 100%

OF OUR PRODUCTION  
IS MADE IN OUR  
OWN FACTORIES

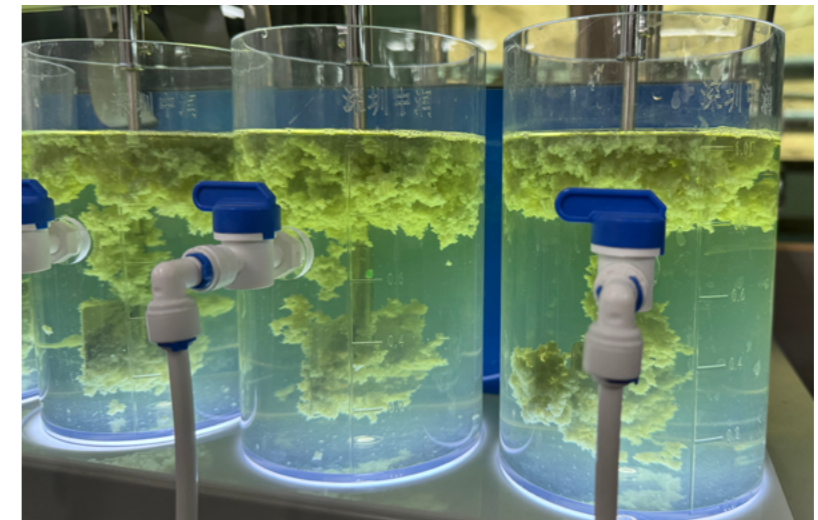

At Woodbrook, we take pride in producing every garment in factories we own and operate. This gives us complete control over the entire manufacturing process - ensuring superior quality, ethical practices, and transparency.

## OPERATING PRINCIPLES

We strive to use the latest innovations in sustainable fabric technology and manufacturing processes to deliver high-quality, high-performance products delivered with integrity.

We own and operate factories that adhere to our high standards and commitment across human resources management, health and safety, environmental practices, legal compliance, security standards and local laws.

# WBA010 Classic Pique Polo

The Woodbrook Classic Pique Polo is a wardrobe essential that combines style and comfort. Made from a high-quality cotton-polyester blend pique for ultimate comfort, it features breathable and quick-drying properties. With a classic 3-button placket and a flat knit collar, this polo pairs easily with denim for a polished look. Available in 15 colors, it boasts a standard fit with side seams. Durable twin needle stitching and dyed-to-match buttons enhance the design, while the taped back neck ensures comfort. The black tear-away label makes customization simple.
